

EFFORTLESS SCADA

REMOTE MONITORING AND CONTROL SOLUTIONS

DEVELOPED FOR WATER AND WASTEWATER APPLICATIONS

FLEXIBLE AND SIMPLIFIED SCADA

Cattron's effortless SCADA solutions are the definitive choice for remote management of water and wastewater applications. Our purpose-built products package advanced hardware with cellular and satellite communications and power it with a cloud-based remote monitoring and control platform for continuous visibility and access to remote sites. With our turnkey monitoring and remote control systems, you can eliminate the complexity and cost of designing and implementing full-scale SCADA systems.

- **Real-time data and insights** powered by RemotelQ™ Water cloud platform available 24/7
- **Alarm notifications** via voice, text or email
- **Easy to manage** with no networks to maintain or third-party licensing requirements
- **Configurable dashboards** with user-friendly data and intuitive graphics
- **Built-in security features** ensure the safety and integrity of your data

APPLICATIONS

SCADA remote monitoring and control systems can be used across a variety of applications.

WELLS

TANKS

LIFT STATIONS

PUMP STATIONS

BYPASS &
DEWATERING

METERS & SENSORS

WASTEWATER &
WATER PLANTS

PRODUCTS

Experience the convenience, simplicity and reliability that our SCADA systems have to offer.

Aquavx Pro

- 12 digital inputs
- Two pulse inputs
- Two analog inputs
- Three outputs

Aquavx ProPlus

- Ten digital inputs
- Three pulse inputs
- Five analog inputs
- Seven outputs
- Duplex pump control

EliteIQ

- Monitor 48 dry contacts or digital inputs
- Up to 72 Modbus PLC channels

RemoteIQ Water

- Remote monitoring and control
- Alarm notifications via text, voice or email
- Intuitive dashboards, reports and analytics

Messenger W

- Three digital inputs
- One analog input
- One Form C 12A relay output

Messenger 600

- Acts as a Modbus RTU Master
- Polls data from a PLC or Modbus device
- Monitor up to 600 data points
